

## Plunge Molding a Canopy

If you've had any frustration in molding a canopy you should take a look at Mike's Flying Scale Model Pages, [www.ffscale.co.uk](http://www.ffscale.co.uk). Scroll down until you find "Canopy forming using a sealant gun" in the Techniques section. I assume the website is copyrighted, so I won't reproduce it here, but the idea is simple and obviously effective. There's a lot of other good information on that website, so it's worth a look-see.
